

Land Cruiser

TOYOTA

ALWAYS A
BETTER WAY

Image shown may not be to DK specification and may show accessory options.

Still unrivalled

The new Land Cruiser takes you from the heart of the city to the rugged terrain of the wilderness, with style, reliability and true Toyota innovation.

More than 60 years of worldwide driving experience have made the Land Cruiser what it is today – a vehicle engineered and evolved to take on the most extreme driving challenges on Earth, with athletic manoeuvrability, rock solid stability and uncompromised on-road comfort.

Design

A new sleek design includes a bold front grille, powerful LED headlamps and new rear light clusters.

4x4 Technology

Whether city streets or off-road terrain, the advanced 4x4 technology gives you the freedom to go anywhere.

Comfort

Travel in comfort and style with state-of-the-art interior technology and versatile seating.

Heritage

With over 60 years of unrivalled driving experience in more than 150 countries, the new Land Cruiser is truly unstoppable.

Image shown may not be to DK specification and may show accessory options.

Refinement that's unparalleled

The Land Cruiser is an iconic blend of stunning design and impressive functionality.

It's as sleek as it is agile and robust. LED front headlamps featuring daytime running lights, an imposing front grille, fog lamps and lower grille give it serious urban appeal and off-road presence. LED rear combination lights and improved rear mouldings complete a new look that makes this the most attractive Land Cruiser yet.

Drive anywhere

The Land Cruiser's full-time 4WD and multi-terrain management system make conquering any landscape easy.

Together, the electronically modulated Kinetic Dynamic Suspension System (KDSS) and Adaptive Variable Suspension (AVS) provide unrivalled control, comfort and stability.

Dynamic handling is made easy with Variable Flow Control (VFC). This advanced technology provides a more solid and defined drive.

Image shown may not be to DK specification and may show accessory options.

State-of-the-art functionality

Intelligent controls on the steering wheel give you access to rear, front and side camera views, your phone, Bluetooth®, voice recognition and Toyota Touch® 2 with Go navigation system. Harmonised illumination and premium upholstery are just some of the improved features inside the new Land Cruiser; features that turn your travel experience from a necessity into a delight. A redesigned centre console houses a state-of-the-art satellite navigation system and a JBL audio system, to keep you informed and entertained on the road.

Images shown may not be to DK specification and may show accessory options.

Interior refinement

The spacious interior of the Land Cruiser blends natural materials, dual-zone air conditioning and clever storage compartments with innovative, hassle-free solutions like Smart Entry & Start System.

Comfortable dual-tone leather seating with brushed aluminium inserts provides space to stretch on long journeys and supports healthy posture, complementing all shapes and sizes perfectly.

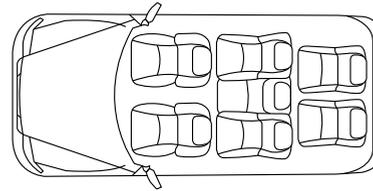

Image shown may not be to DK specification and may show accessory options.

The image shows the interior of a Toyota Easy Flat van. The seats are upholstered in a rich brown leather. The second and third rows of seats are folded flat, creating a large, open cargo area. The van's interior is light-colored, and the windows provide a view of a modern cityscape with tall buildings on the left and a scenic landscape with a dirt road and hills on the right. The text "As your adventure unfolds" is overlaid on the left side of the image.

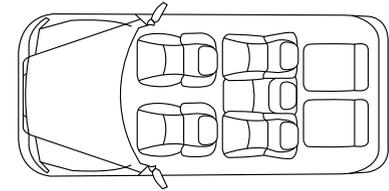

As your adventure unfolds

Whether you need space for passengers or for loading, Toyota Easy Flat seat system provides multiple configurations for maximum versatility. You can flatten the second and third rows for transporting as much luggage as you need for a trip around the world, or a spontaneous city break.

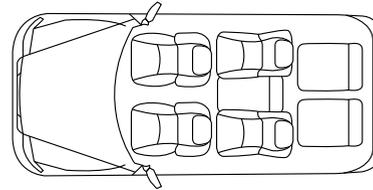

Image shown may not be to DK specification and may show accessory options.

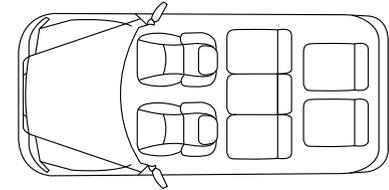

7 people travelling
All seats up.

5 people travelling
3rd row stowed.

4 people travelling
2nd row centre seat folded down and
3rd row stowed.

2 people travelling
2nd row seating folded down and
3rd row stowed.

Versatile seating

The second row seats fold with a 40:20:40 split¹ (with the option of 2nd row seat heaters in the outer seats); the 3rd row features a central 50:50 split with underfloor seat storage. With a rear glass hatch window for loading that operates easily with one hand, the Land Cruiser opens up a multitude of options for stowing your luggage easily and safely, on a completely flat surface area.

¹ 5-door model only.

Unbeatable power

The Land Cruiser is finely tuned for navigating city back streets, cruising the fast lane or ascending a mountain dirt track.

Outstanding performance is guaranteed with the 2.8 litre turbo diesel engine technology. A cleverly optimised fusion of power and torque provide an exhilarating drive, never compromising efficiency.

Engine 2.8 litre diesel D-4D 6 M/T	Power 177 DIN hp	Fuel consumption¹ 13,5 km/l	CO₂ emissions¹ 194 g/km	Available on T1, T2
2.8 litre diesel D-4D 6 A/T	177 DIN hp	13,5 km/l	194 g/km	T2, T3, T4

M/T = Manual transmission A/T = Automatic transmission ¹ Combined cycle.

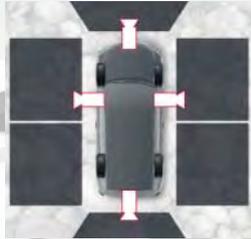

Image shown may not be to DK specification and may show accessory options.

Off-road technology

What makes the Land Cruiser such a pleasure to drive off-road is an abundance of innovative technology that's become synonymous with Toyota.

Multi-Terrain Select (MTS)
Tackle any scenario with a choice of five terrain modes – 'Rock', 'Rock & Dirt', 'Loose Rock', 'Mogul' and 'Mud & Sand'. The vehicle's throttle, braking and Traction Control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.

Multi-Terrain Monitor (MTM) – 4 cameras
MTM allows you to see the road around, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras. By simply pressing the multi-function switch on the steering wheel, you'll have an instant understanding of your surroundings.

Body angle display
In uneven off-road conditions it is often difficult to determine your steering direction. The new Land Cruiser's Multi-information display shows the body angle guide lines to give you confidence in these situations.

Kinetic Dynamic Suspension System (KDSS) off-road
Drive off-road and remain firmly on the ground with greater traction. The stabiliser is disconnected. With the fluid now allowed to flow freely through the system, each wheel can move with much more independence on uneven ground. The resulting longer wheel travel provides uncompromised traction and stability on the roughest terrain.

Crawl Control

Confidently tackle challenging off-road conditions without touching the accelerator or brake pedals – all you do is steer. Crawl Control automatically manages the engine and brakes to maintain a consistent crawling pace. Just press the 'CRAWL' button, select one of five speeds – and go. Speed can be changed on the move.

Downhill Assist Control (DAC)

When driving down steep descents where deceleration by engine braking alone is not sufficient, DAC automatically controls the hydraulic pressure of all four brakes to maintain a constant speed. This helps to reduce wheel lock and enables even slippery descents to be negotiated at low, constant speed. Vibration on steep, uneven descents is also reduced, ensuring vehicle stability.

Full-time 4WD

Maintain optimum traction in all conditions. Full-time 4WD varies torque distribution between front and rear wheels for optimal performance. Normal conditions require a 40:60 front:rear split. The new Land Cruiser allows a scope of 50:50 to 30:70 to meet the demands of any terrain.

Active Traction Control (A-TRC)

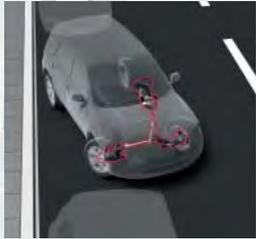

Traction is maintained or established through the selective distribution of torque to individual wheels, overcoming wheel spin and helping to stabilise when accelerating on slippery roads and in muddy conditions.

Image shown may not be to DK specification and may show accessory options.

On-road technology

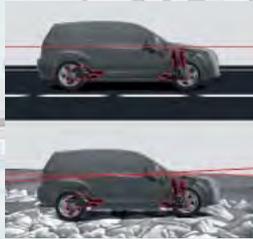

We've thought of everything, including a multitude of ways to make your on-road drive stress-free and more enjoyable.

On-road assistance includes:

Variable Flow Control (VFC) power steering

VFC controls the flow of steering fluid in response to your travelling speed and steering movements. The flow increases at slow speeds to make the steering wheel easier to turn, then decreases at high speeds for a more solid and defined drive.

Adaptive Variable Suspension (AVS)

AVS continuously adapts shock absorber damping in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

Kinetic Dynamic Suspension System (KDSS) on-road

KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort.

Robust body-on-frame construction

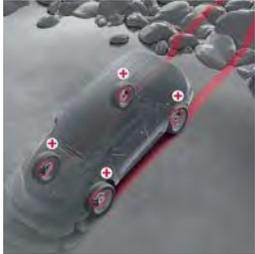

High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

Manoeuvrability with an optimised turning radius

The new Land Cruiser's proportions and minimum turning radius of 5.8m (5-door) provide agile and user-friendly handling, making driving easy with enhanced manoeuvrability and stability.

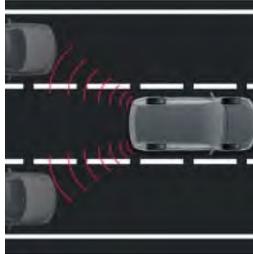

Unbeatable protection

Safety features on the Land Cruiser are second to none, so you're free to enjoy the journey ahead.

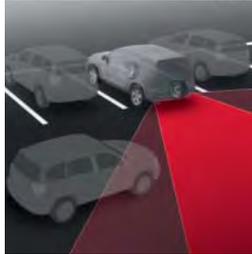

Multi-Terrain Anti-lock Braking System (ABS)

When driving with Multi-Terrain Select, the ABS controls the wheel lock on loose surfaces. This automatically adjusts to the terrain you are driving on to provide optimal braking performance.

Blind Spot Monitor (BSM)

The BSM system allows the driver to manoeuvre more safely during lane changes. If the rear-mounted radar sensors detect a vehicle in your side or rear blind spot, a warning indicator will illuminate on the appropriate side mirror. Should you indicate to change lanes and a vehicle is in your blind spot, the warning indicators will flash to alert you that a lane change should be avoided.

Rear Cross Traffic Alert (RCTA)

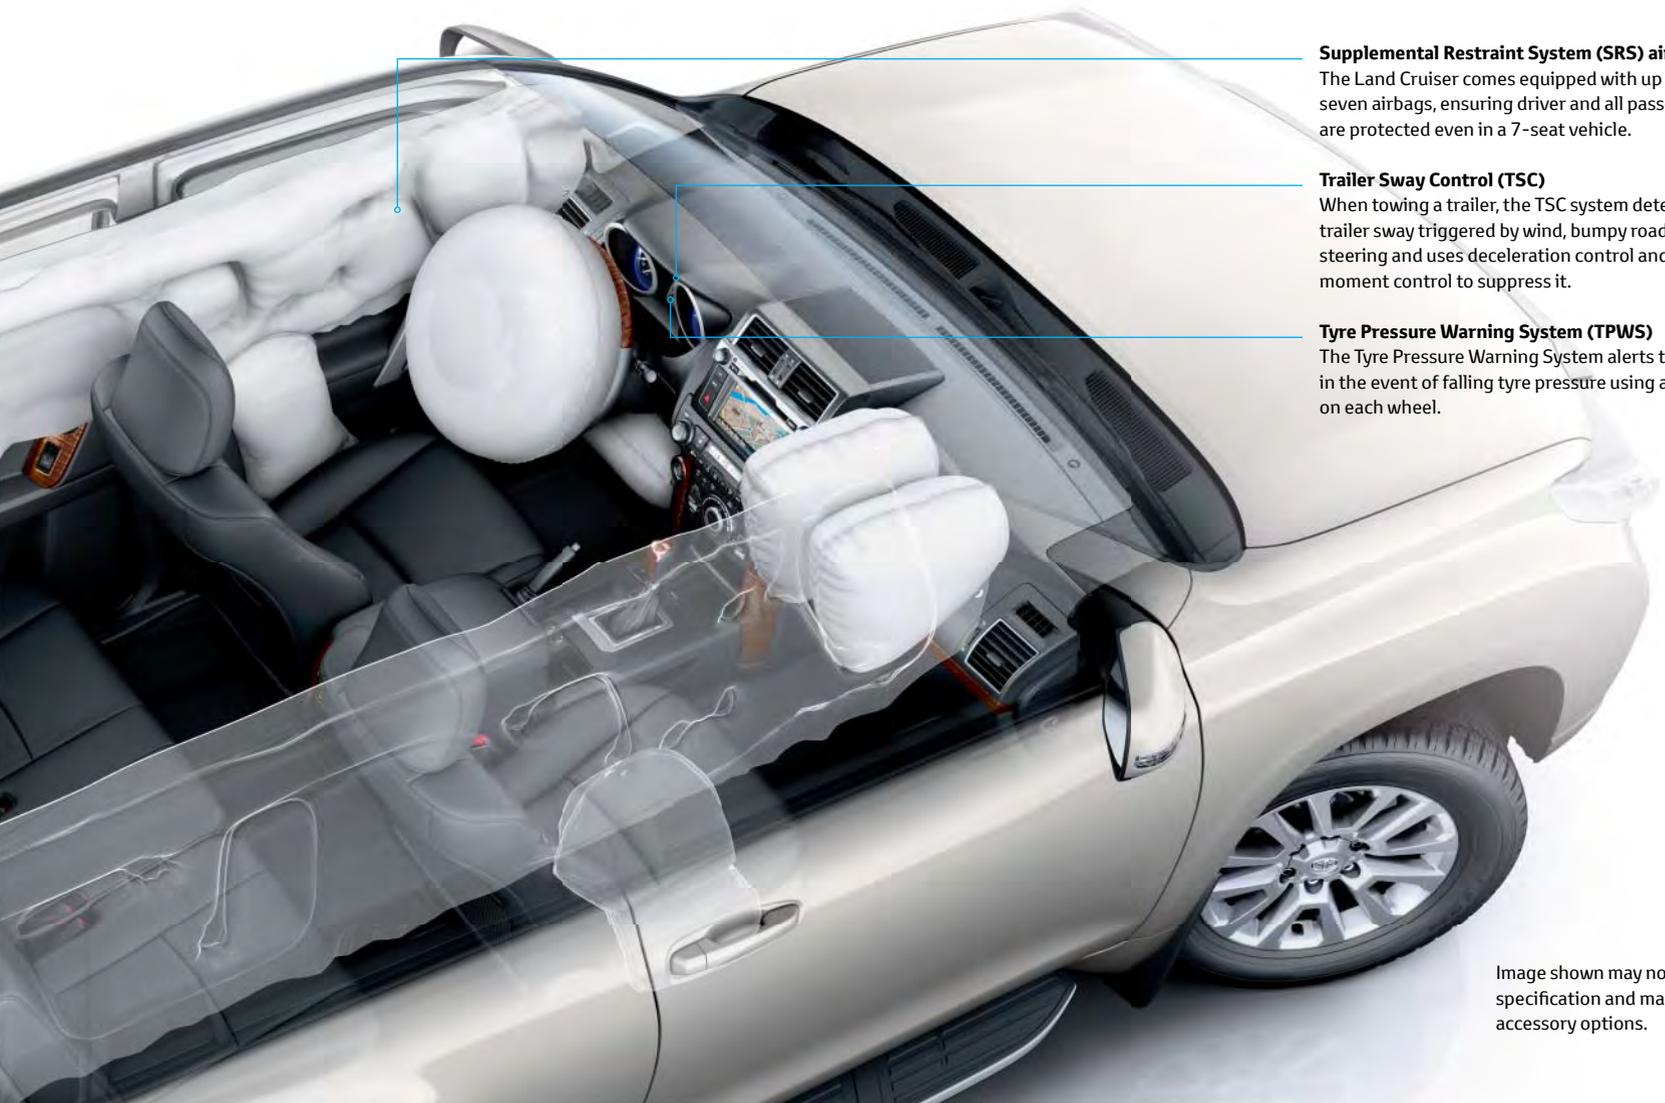

RCTA allows you to reverse out of a parking space safely by detecting other vehicles approaching your blind spot area. Using quasi-millimetre wave radar, RCTA alerts you with a buzzer and flashing indicators on the outer mirrors.

Vehicle Stability Control (VSC)

VSC is a system that helps prevent side skids and stabilises the vehicle while turning on a curve. When the vehicle senses a loss of traction or a slip, braking is automatically applied to all four individual wheels and engine power is reduced.

Supplemental Restraint System (SRS) airbags
The Land Cruiser comes equipped with up to seven airbags, ensuring driver and all passengers are protected even in a 7-seat vehicle.

Trailer Sway Control (TSC)
When towing a trailer, the TSC system detects trailer sway triggered by wind, bumpy roads or steering and uses deceleration control and yaw moment control to suppress it.

Tyre Pressure Warning System (TPWS)
The Tyre Pressure Warning System alerts the driver in the event of falling tyre pressure using a sensor on each wheel.

Features and technology

Toyota Touch® 2 with Go navigation system

Toyota Touch® 2 with Go is a fully integrated multimedia system including a colour touch screen with drag and flick capabilities and an advanced audio system compatible with

USB devices, iPods and smartphones. It also comes with a navigation system with full European map coverage, detour and eco-route functions.

JBL 17 speakers

This premium sound system gives you superior, immersive acoustics specially calibrated for Land Cruiser's interior cabin.

The Land Cruiser range – exteriors

Images shown may not be to DK specification and may show accessory options.

T1

Main features

- 17" alloy wheels (6-spoke)
- Multi-reflector halogen headlamps
- Front fog lamps
- Automatic headlight cut
- Chrome-plated front grille
- Body-coloured front bumper
- Body-coloured rocker & lower door moulding
- Black side steps
- Body-coloured rear bumper
- Rear spoiler
- Remote door locking

T2

Main features (additional to T1 grade)

- Headlamp cleaners
- Heated door mirrors
- Electrically retractable door mirrors
- Body-coloured rocker & lower door moulding
- Black side steps
- Body-coloured rear bumper
- Rear spoiler
- Remote door locking
- Body-coloured door mirrors
- Electrically retractable door mirrors
- Daytime running lights (LED type)
- LED headlamps
- Follow-me-home headlights
- Safety stay-on rear lights
- Silver detail on front grille

T3

Main features (additional to T2 grade)

- 18" alloy wheels (6-double-spoke)
- Aluminium side steps
- Illuminated side steps
- Front and rear parking sensors
- Dusk sensor
- Rain sensor
- Chrome plated front grill
- Privacy glass

T4

Main features (additional to T3 grade)

- 360° panoramic view camera

The Land Cruiser range – interiors

- 4-spoke leather and wood steering wheel
- Adaptive Variable Suspension (AVS)
- Toyota Touch® 2 with Go Plus navigation system
- 17 speakers
- JBL premium sound system

Accessories

Genuine Toyota accessories add your own touch of individuality to the Land Cruiser experience. With choices for style, practicality and innovation you can tailor your car for every twist and turn on life's big highway.

1. Exhaust pipe finisher

Made of chromed stainless steel to create an eye-catching detail.

2. Wind deflectors

Aerodynamically shaped to reduce in-car wind noise and buffeting when driving with open windows.

3. Mirror covers

With a deep chrome finish to emphasise your car's sculptural mirror design.

4. Rear lower trunk garnish

A dash of chrome along the lower trunk edge highlighting the rear contours.

5. Rear skirt

Extends the depth of the rear bumper to give a dynamic low profile appearance.

6. Side bars

The rugged appeal of an off-road side bar with a lustrous chrome finish.

Please contact your Toyota retailer for details of the full accessory range.

7. Side mouldings with side sill

Protection for your car's side panels combined with a stylish chrome inlay.

8. Full trunk guard

Robust floor-to-ceiling mesh frame for containing luggage or a pet dog in the trunk.

9. Cargo manager

With a flexible aluminium bar and textile belt to hold cargo in place. Fits into your car's trunk floor rails.

10. Rear bicycle holder

Attaches to a Toyota towing hitch for safe transport of 1 or 2 bicycles. One single key locks bike to carrier and carrier to car. Includes a lights and licence plate holder.

11. Child restraint seats

Toyota's range of child restraint seats provides options for each age group. The fixings are secure, the fabrics robust and the designs ensure safety with comfort.

Glossary

Discover more about Land Cruiser technology.

Rain sensor

The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

Dusk sensor

The dusk sensor monitors light levels and automatically switches on the headlights when the light is low.

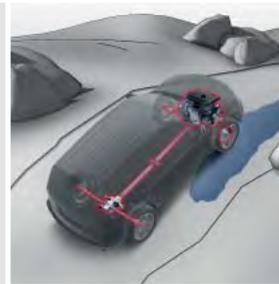

Smart Entry & Start System

Instead of a conventional key, the Smart Entry & Start System features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Trailer Sway Control (TSC)

TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the stop lamps are illuminated.

Active Traction Control (A-TRC)

Designed for on and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

Dynamic guide lines on camera display

Reverse more safely using the dynamic guide lines on the rear-view camera display. The display shows the area behind the vehicle, as well as the vehicle's anticipated course when reversing. The clear colour image helps you to spot hidden hazards and dynamic guide lines will adjust as the vehicle manoeuvres to help you reverse and park with ease.

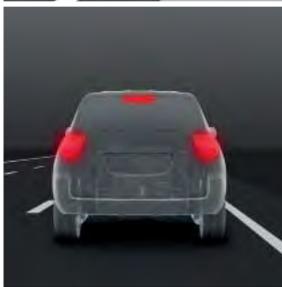

Emergency Brake-light Signal (EBS)

In emergency braking situations, EBS flashes the vehicle's brake lights repeatedly to alert following traffic.

2.81 D-4D

The 2.8 litre D-4D diesel engine maximises power and fuel efficiency while significantly reducing noise levels. This produces maximum torque across a greater speed range paired with unprecedented acceleration performance.

Light Emitting Diode (LED) rear brake lights

LED lights illuminate faster than conventional bulbs. This alerts following traffic to brake sooner. LEDs also last longer and use less energy.

6-speed automatic transmission

Toyota's automatic transmissions offer a smooth, effortless drive with minimal driver effort. Gear changes are quick and responsive, and additional manual modes (availability depending on model) enable greater control if required. Automatic transmissions are engineered for the best balance of performance and economy.

Supplemental Restraint System (SRS) airbags – 7 airbags

This model is fitted with seven airbags. They include driver's knee airbag, SRS airbags for both driver and passenger, side airbags for the front seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

Owning a Land Cruiser means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity

Designed to minimise maintenance

Intelligent engineering

The Land Cruiser is designed and engineered to minimise maintenance. There are fewer parts that require servicing and those that do are more durable to extend service intervals. Land Cruiser technology is made easily accessible so that labour time is minimised. Competitively priced Toyota spares ensure the lowest cost for maintaining your Land Cruiser.

Full Health & Safety check

Toyota quality service

Your Toyota retailer is here to help and guide you in all your service requirements.

Your Land Cruiser will need a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 30,000 km (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 15,000 km (whichever comes sooner).

Low parts & labour charges

Toyota genuine parts

Land Cruiser is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

3 years
Vehicle
warranty

Comprehensive warranty

3-year vehicle warranty covers any defect caused by a manufacturing or assembly fault. It is valid for 3 years of normal use or 100,000 km, whichever comes first, with no mileage limitation for the first year. If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

3-year paint warranty covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

12-year anti-perforation warranty covers against perforation of the bodywork (from inside to outside) that develops due to corrosion caused by faults in materials or workmanship, regardless of mileage.

3 years¹
Roadside
assistance

Toyota Eurocare

In order to help you enjoy peace of mind driving, we are pleased to provide 3 years¹ Toyota Eurocare roadside assistance coverage in no fewer than 40 European countries. If you experience a problem with your Land Cruiser, Toyota Eurocare offers several possibilities to keep you on the road.

Added security

The Land Cruiser security system withstands the insurance industry's rigorous 5-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

3 years²
Accessory
warranty

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 3-year warranty when purchased together with the vehicle².

¹ Belgium 5 years, Portugal and Denmark 1 year.

² Check with your retailer for specific warranty details.

Toyota takes great pride in constantly improving environmental performance

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites
- Supporting companies
- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

Not represented on this map:
Toyota Caucasus LLP, Union Motors Ltd (Israel), Toyota Motor Kazakhstan LLP.

Less CO₂ used to build a Land Cruiser since 2007

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

The Life Cycle Analysis for the new Land Cruiser (engine type 1GD-FTV) compared to the previous model, shows a reduction in emissions of all the main pollutants and considerable reductions of 16% in CO₂ (Carbon Dioxide), 45% in NO_x (Nitrogen Oxide), 47% in PM (Particulate Matter) and 16% in NMHC (Non-Methane Hydrocarbons).

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process. Since 2007, we have reduced the average energy consumption per vehicle built at the Toyota Tahara plant.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable retailer programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new retailers, as well as carrying out energy audits to identify efficiency improvements at existing retailers.

95% of your
Land Cruiser
is recoverable

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Land Cruiser is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota retailer.

20–30%
less fuel and CO₂

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20–30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.
10. Switch off your engine if you have to wait longer than 60 seconds.

For Toyota, quality is a way of life.
Nothing is so good it cannot be made better
